3rd STEEL & RAW MATERIAL CONFERENCE

Emerging Bangladesh

SCRAP • DRI • HRC • TECHNOLOGY

BANGLADESH

167 Million Population

6.4% GDP

4 MnT Scrap Import

13 MnT Steel Melting Capacity by 2025

Bangladesh is one of Asia's key emerging and fastest growing economy. Its galloping growth rate requires infra development at an unprecedented scale, underscoring the demand for steel, cement, power etc. It is globally the 2nd-largest destination for scrapped ships and one of the largest ferrous scrap consumers with imports touching 4 mnt currently. To power economic growth, its coal imports are expected to touch 18 mnt by 2025.

About the **CONFERENCE**

SteelMint Events proposes to organize the 3rd edition of Steel & Raw Material Conference – Emerging Bangladesh, which sets up a unique platform to bring key industry leaders together with global suppliers to discuss technology, trends, fresh ideas and potential business opportunities.

This two days international conference will be attended by major raw material and technology suppliers from all over the world with an objective to network with steel, scrap, sponge iron/DRI producers, traders & indenters in Bangladesh.

What Makes Bangladesh an **INTERESTING STORY?**

-  With 6.4% GDP growth rate, Bangladesh is the world's 3rd fastest growing economy
-  Steel melting capacity likely to ramp up from 9 MnT to 13 MnT in coming years due to upcoming infra projects
-  Bangladesh is 3rd largest ferrous scrap importer with scrap import touching 4 MnT in CY'21
-  Scrap generation from ship breaking on the rise, imports rose by 40% in CY'21
-  Bangladesh - 2nd largest destination for ship-breaking facility in the world
-  Bangladesh becoming new auto hub with annual growth rate of 8% in last decade

Tentative Schedule

Day 1 | 20.09.2022

08:00 - 10:00 | Registrations 

Opening Session : Bangladesh Growth Story

10:00 - 11:30

- ◆ Bangladesh economic development, urbanization, Employment, infrastructural development

11:30 - 12:00 | Networking Tea & Refreshments 

Changing Dynamics of Global Steel Trade and its Impact on Bangladesh

12:00-13:15

- ◆ Changing dynamics of global trade flows
- ◆ Outlook on Bangladesh steel industry- capacity, consumption, exports, govt policies
- ◆ Future plans of Chittagong port
- ◆ Panel discussion

13:15 - 14:00 | Networking Lunch  

Demand Opportunities for Steel In Bangladesh

14:00-15:30

- ◆ Upcoming infra projects in Bangladesh
- ◆ Outlook of flat steel industry in Bangladesh (capacity, consumption, exports)
- ◆ What sectors are driving steel demand in India? (Renewables, infra, auto)
- ◆ Panel Discussion : Future of automobile industry in Bangladesh? Rising demand of Zn & Al in Bangladesh?

15:30 - 16:00 | Networking Tea & Refreshments 

16:00-17:30 | Technical Workshop 1

Tentative Schedule

Day 2 | 21.09.2022

Upcoming Steel Capacities in Bangladesh and Raw Material Challenges

10:00 - 11:30

- ◆ Bangladesh crude steel capacities likely to increase to 13 mnt by 2025
- ◆ Bangladesh scrap imports to touch 6 mnt by 2025?
- ◆ Changing trade flows of global steel scrap
- ◆ Panel Discussion: Countries are using more scrap to achieve green goals. How will it impact global scrap supplies?

11:30 - 12:00 | Networking Tea & Refreshments 

Overview of Global Ship Recycling industry

12:00-13:00

- ◆ Ship recycling outlook 2022
- ◆ Future of green ship recycling

- ◆ Ensuring commercially viable strategies when complying with the environmental regulations
- ◆ Panel Discussion : Ship recycling price trend in short to medium term, Impact of currency, govt. subsidy

13:00 - 14:30 | Networking Lunch  

Scrap & Raw Material Pricing - Short Term to Medium Term

14:30-16:00

- ◆ Global scrap price outlook; short to medium term
- ◆ 5 Things to lookout which can impact scrap market in next one year
- ◆ Hedging of foriegn exchange risk for imports
- ◆ Panel discussion

16:00 - 16:30 | Networking Tea & Refreshments 

16:30-17:30 | Technical Workshop 2

Confirmed Speakers

**Alhaj Sufi Mohamed
Mizanur Rahman**

Founder-Chairman PHP Family,

3rd STEEL & RAW MATERIAL CONFERENCE

20th-21st SEP'2022, HOTEL RADISSON BLU, CHITTAGONG (BANGLADESH)

SteelMint[®]
Events

20th-21st Sep'2022
Bangladesh

**3rd STEEL &
RAW MATERIAL
CONFERENCE**
Emerging Bangladesh

SCRAP • DRI • HRC • TECHNOLOGY

**BSRM Plant &
Yard Visit**

22nd Sep'22

Snapshot of the Conference

SteelMint Events is pleased to organize the 3rd Steel & Raw Material Conference - Emerging Bangladesh (20 & 21st Sep'22) in conjunction with the BSRM Plant & Yard Visit (22nd Sep'22).

The conference will cover a wide range of topics, including the country's steel production and demand outlook; global scrap trade flow changes, particularly in the aftermath of the Russia-Ukraine war; the ship recycling scenario; key emerging sector price trends; and much more.

About the Plant Visit

The Bangladesh Steel Re-Rolling Mills Ltd., commonly known as BSRM is South Asia's largest importer of ferrous scrap. Every year, it imports more than 1 million tonnes of scrap. Understanding the operation and technology of a high-volume scrap handling facility will be a significant draw. On September 22nd, delegates will have the opportunity to visit the production facility and scrap yard to examine the plant's technological advancement.

Objectives

- To gain a better understanding of Bangladesh's steel production.
- To learn about the operations and technological innovations of South Asia's largest scrap handling facility.
- To assess the performance potential of ferrous scrap in the Electric Induction Furnace (EIF) route steel production.

Introduction to BSRM

BSRM, Bangladesh's leading steel manufacturer, is one of the most prominent corporate houses in the country. Among its many other pioneering steps, it is the first to introduce an EMF-tested grade 500 rod, the first to pass 5 million cycling loading fatigue testing in the United Kingdom, and be certified to global standards. BSRM always looks into the need of the customers for which over the years it brought innovative products and services – like the production of a 50mm dia bar, especially for the deep piling requirement of Padma Bridge.

BSRM's specialized products are also designed to meet the specific needs of the construction industry.

Today, BSRM is the country's largest steel producer, with 7 production facilities and an annual melting capacity of 1.8 million tonnes via the induction furnace route.

7 Plants in Operation

2.00 Mn MT
Annual Melting Capacity

2.00 Mn MT
Annual Ferrous Scrap Imports

2,00,000 MT
Annual Sponge Iron Imports

24,000 MT
Annual Wires Prod. Capacity

Plant Information

Plant Name: **BSRM Steels LTD**
Location: **Jorarganj, Mirsharai, Chattogram**
Plant Establishment: **2017**
Area: **40 Acres**
Product: **Billet**
Annual Production Capacity: **0.6 Million MT**

Plant Name: **BSRM Steel Mills LTD**
Location: **Sonapahar, Mirsharai, Chattogram**
Plant Establishment: **2015**
Area: **55 Acres**
Product: **Billet**
Annual Production Capacity: **1 Million MT**

Itinerary

20th & 21st
Sep'22

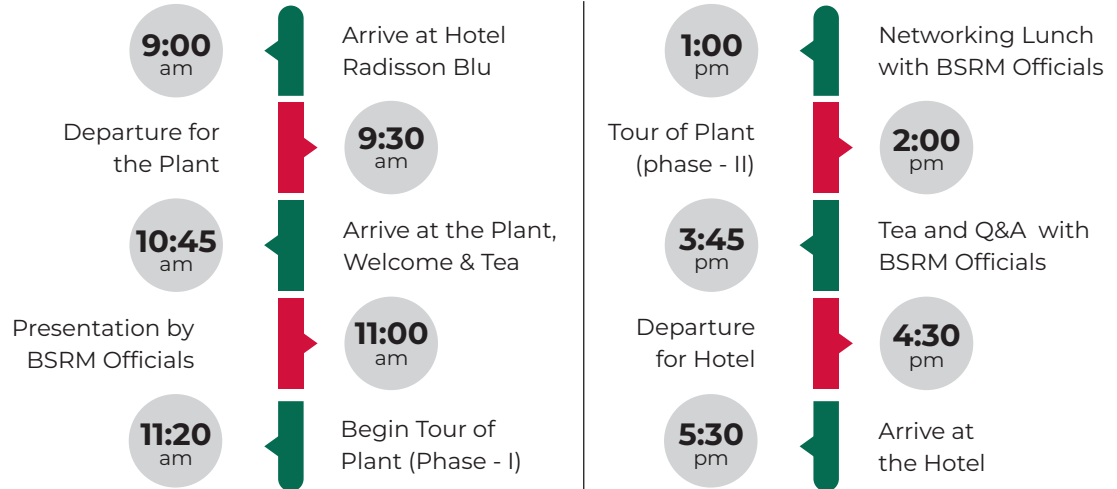

3rd Steel & Raw Material Conference

Hotel Radisson Blu,
Chittagong

22nd
Sep'22

Inclusions

- The trip is Ex-Radisson Blu
- Domestic Travel (bus) to/from the plant
- Networking Tea & Lunch
- SteelMint Analyst to accompany the team

Per Delegate Fee

USD 100

(not included in the Conference fee)

Terms & Conditions

- For foreign attendees of the 3rd Steel & Raw Material Conference
- Participation will be subject to approval by BSRM Group
- Maximum 2 delegates allowed from each company
- Entry on a first-come-first-serve basis
- Last date to register for Visit – 7th Sep'22
- Visit Fee will be excluding the conference fee
