## What is **ENGAGE**?

SteelMint Group is coming up with its webinar series "ENGAGE 3.0: The virtual connect 2022" which is a four-day webinar event, scheduled from 01st - 04th Nov'22 comprising a broad spectrum of topics ranging from steel, coal, ferro & graphite electrode, iron ore, scrap & recycling, stainless steel, carbon emission (technology)

The current geopolitical situation poses continued supply chain disruptions, higher energy and commodity prices, especially for steel raw materials, and financial market volatility and uncertainty undermining investment. The agenda is to understand the perspective of global industry leaders on various topics identified for discussion and enable all the industry stakeholders to have a better understanding of how different sectors are likely to pan out in the near future.
