

# INTERNATIONAL EXHIBITION & TRADE FAIR ON STEEL, MINING, POWER & COAL

RAIPUR • KOLKATA • HYDERABAD

12<sup>th</sup> MAY | 25<sup>th</sup> MAY | 10<sup>th</sup> JUNE

The Indian iron & steel industry has reached a crossroad where, to remain in competition against domestic as well as imported products, a steel manufacturer has to attain more & more cost efficiency. And this can only be achieved through economies of scale and application of energy saving environment friendly & low raw material consuming technologies whether it is iron making, steelmaking, refining, casting or rolling.

SteelMint Events is proposing to organize an international platform to showcase innovative iron & steel making technologies with an objective to bring together equipment, technology & raw material supply leaders from steel, mining, power & coal industry and plant heads/owners from various parts of the world in a uniquely designed series of back-to-back exhibitions across India.
