Bangladesh **economy**

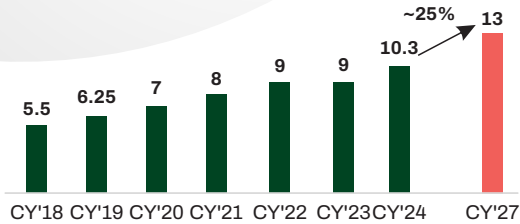

Bangladesh's economy is interlaced with potential, dynamism and resilience.

It was one of the fastest growing countries in the world, with an average growth rate of 7%. The country is now taking a futuristic approach through embracing sustainable solutions for industries and power generation.

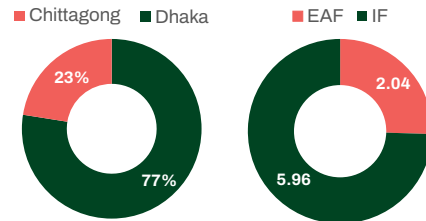

Steered by progression in infrastructure, construction & shipbuilding, the steel demand is expected to touch 15 mntpa by 2027. The cement industry, with its stable growth, is actively exploring opportunities to meet its clinker demand of 25 mtpa. While challenges for procurement of raw materials in the steel and cement industry necessitates imports, it also presents Bangladesh a bigger opportunity for regional collaboration. The 26k MW power sector is mostly dependent on Non renewables sources, though it is swiftly transitioning into clean and green energy.

About the conference

BigMint (formerly SteelMint) proposes to organise the 4th edition of our event- Bangladesh International Trade Summit - Sustainable Future.

Bangladesh, a strategically significant country for Asia-Pacific is emerging as a hotspot of growth through sustainable practices. The economic expansion is expected to encourage participation of more global companies and attract forex for the country.

The two-day conference shall bring together key stakeholders from steel, cement and power industries including industry leaders, policymakers, traders and investors. It shall provide a network for collaborative opportunities and a platform for discussion of trends and challenges in the market.

Why Bangladesh?

- Bangladesh has had a robust economic growth averaging nearly **7%** in the last decade
- With a population of **172** million, Bangladesh presents a significant opportunity, offering a vast consumer market and a substantial pool of manpower.
- Bangladesh, which is of high geographic and strategic importance, is witnessing greater investments and collaborations from countries like **China, Japan, India, Korea** among others.
- The Ready-Made Garment Industry (RMG) is increasingly embracing solar energy as a sustainable power solution to align with compliance norms from Europe.
- Bangladesh's steel consumption is estimated to reach 10.6 million tons by 2027
- It is the second largest destination for ship dismantling in the world and is coming up with four **Green ship recycling** yards.
- It is eyeing diversification into other key industries apart from its major **textile** industry.
- The per capita steel consumption of **45kgs** is predicted to shoot up amidst greater infrastructural growth
- It also imports raw materials for cement, majorly clinker and other materials such as **limestone, gypsum, fly ash** etc.

Topics of discussion

- **Bangladesh's Macro Economic Outlook** - Current capacity, policy & 2030 targets
- International availability of **Steel Raw Material Metallics** and source diversification
- **Flat Steel Market Dynamics** & import scenario
- Harnessing the **Potential of Green Ship Recycling**
- **Steel and Cement Demand** in Bangladesh's infrastructure growth
- **Cement Raw Material Procurement** & source diversification
- **Renewable Energy** as sustainable & secure power source
- Accessing the usage of **Nonrenewable Energy Sources** - Coal, gas, oil
- Technology and capex involved in **Renewable Energy Transition**
- **Regional Power Cooperation** - Bangladesh, India, Nepal

Waking off Covid lull, Bangladesh garment industry eyes global foothold

and stable costs.

"In 2021 the old price range was broken by a period of global steel deficit. Post-covid demand recovery was too sharp for steel production to keep up. In 2022 we have seen a new paradigm as demand is receding at most developed economies due to a combination of factors, including high cost of capital and high cost of energy," he added.

Local and foreign experts spoke at several sessions at the conference on the current situation and prospects of iron and steel products used in the country and abroad, increase in cost of steel

Ctg international steel conference in September

Ahead of the event, a three-member Indian delegation is coming to Bangladesh on 11 June

SCRAP · DRI · HRC · TECHNOLOGY

Well known local companies such as PHP Family, BSRM, GPH Steel, KDS Group, Golden Steel, Rahim Steel, Amwar Steel, and Bashundhara Steel will join the event.

Foreign and local experts will speak in a number of special sessions on marketing policy, global raw material prices and ship recycling, especially the post-Russian-Ukraine war trade, and more.

Saif Mohammad Mizarur Rahman, an Ekushey Padak-winning industrialist and chairman of PHP Family, will inaugurate the two-day conference. SteelMill Limited, a joint venture of India and Bangladesh, is going to sponsor the event.

Chattogram to host 3rd Int'l Steel Conference this September

With the theme "Emerging Horizons," the conference will be held at the Radisson Blu Chatterang Bay View hotel with around 500 delegates from 25 countries will attend the conference at the Radisson Blu Chatterang Bay View hotel in the port city

The conference will be attended by leading industrial machine manufacturers, industrial consultants, steel product users, and engineers from various industries.
